SUMMARY

Dynamic web developer with a proven track record at eAbort, where I enhanced user experience through responsive design and interactive features using HTML, CSS, React JavaScript. Skilled in DataBases & REST APIs and adept at collaborating with teams, I bring strong problem-solving abilities and a creative mindset to every project. Collaborative Intern offering strong analytical and problem-solving abilities with high attention to detail. Well-versed in creating PowerPoint presentations and updating the databases.

SKILLS

- HTML5 and CSS3
- Bootstrap and Tailwind CSS
- JavaScript and React.js
- Node.js and Express.js
- RestFul API's

- Coding proficiency
- Responsive web design
- Linux Os
- Version Control(Git, Git hub)
- NoSQL databases (MongoDB)

- Generative AI applications
- Data structures and algorithms
- Creative problem solving
- Excel proficiency
- Figma Design tools

PROJECTS

Mern Authentication - https://github.com/Balineni789/Mern-Auth

Technology used: Node Js & Express Js| JavaScript | Mongo Db | Html5 & Css3 | Api's (axios)

- Web Development Projects – Professional Overview Project Scope & Objectives Technologies & Frameworks Outcome & Impact
- Web development projects are dynamic solutions that combine creativity, technical expertise, and strategic thinking to build responsive, user-centric web applications and platforms. These projects across various industries and use cutting-edge technologies to solve real-world problems and enhance digital experiences.
- Each web development project is driven by a specific objective—whether it's enhancing brand visibility, automating business processes, enabling e-commerce capabilities, or delivering engaging content through scalable and secure platforms.
- Projects typically utilize a robust tech stack to ensure performance, maintainability, and scalability:
    - Front-End: HTML5, CSS3, Boot Strap, Tailwind CSS, JavaScript, React.js
    - Back-End: Node.js, Express.js,
    - Databases: MongoDB,
    - APIs & Integrations: RESTful APIs, .
    - Version-Control: Git-hub, Git.

These web solutions are engineered to be scalable, secure, and efficient—delivering seamless performance across devices and browsers. Each project is tailored to user needs, aiming to increase engagement, streamline workflows, and drive measurable results for clients or users.

My Portfolio - https://github.com/Balineni789/Portfolio

- Welcome to my web development portfolio, a showcase of my passion and expertise in creating dynamic and engaging digital experiences. With a strong foundation in HTML, CSS, and JavaScript, I design and develop responsive websites that are not only visually appealing but also user-friendly and accessible. My portfolio highlights a diverse range of projects, from sleek corporate websites to interactive web applications, each demonstrating my commitment to innovation and attention to detail. I utilize modern frameworks and tools to ensure that my work is both cutting-edge and efficient. Explore my portfolio to see how I can transform ideas into reality and help elevate your online presence.

React_Projects-
https://github.com/Balineni789/React-Projects

Technology used: React Js | BootStrap | Html5 & Css3 | ApI's

- *Functional components and React Hooks (useState, useEffect, etc.)*
- *Dynamic routing using React Router*
- *State management with Context API / Redux*
- *Integration with external APIs (e.g., fetching product data, handling forms)*
- *Responsive design with Bootstrap, Tailwind, or custom CSS*
- *Deployment using platforms like Netlify, Vercel, or GitHub Pages*

WORK EXPERIENCE

Inernship

Julio66 • Jan 2024 - April 2024

- *Utilized HTML, CSS, and JavaScript to develop responsive web pages, improving site accessibility across devices.*
- *Utilized JavaScript, HTML, and CSS to create interactive and visually appealing web pages with some REST APIs.*
- *Designed and developed blog post sites using HTML.*
- *Communicated clearly with web development teams, ascertaining daily tasks, and completing them to exact direction.*
- *Collaborated with senior web developers to design and implement new website features, enhancing user experience.*

Web - Developer

eAbort, Hyderabad • Feb-2025

- *During my tenure, I gained valuable insights into the tech industry's work dynamics and corporate policies.*
- *During my tenure, I gained valuable insights into the tech industry's work dynamics and corporate policies.*
- *The experience at Julio66 enhanced my professional acumen, encompassing effective client communication, online and physical etiquette, and formal correspondence.*
- *Contributed to project management tasks, tracking progress, and coordinating with team members for timely completion.*
- *Shadowed the daily activities of office staff to gain an understanding of the scope of work.*
- *Helped maintain applicant tracking systems and recruiting metrics.*

EDUCATION

Bachelor of Science in Computer Science
Gitam University • 2019–2023

Secondary Education
Sri Chaitanya Junior Collage
2017–2019

CARRIER GOALS

Intermediate Goals :
- Master a front-end framework like React, Vue, and Next.js
- Understand databases (SQL or NoSQL, like MongoDB)
- Build and deploy full-stack applications

Long-Term Goals:
- **Front-End Developer** → UI/UX Designer or Front-End Architect
- **Back-End Developer** → DevOps or Solutions Architect
- **Full-Stack Developer** → Tech Lead, Product Engineer, or CTO

INTRESTS AND HOBBIES

- *I like to play and watch cricket*
- *Listening to music and watching movies*
- *Playing indoor games like chess and carroms*
- *I like riding and traveling by exploring nature*
- *I Love Machines.*
- *Developer As a passionate and results-driven developer, my primary career goal is to continuously grow both technically and professionally while contributing to impactful, user-focused digital solutions.*
